03:19 ZINA O'LEARY [continued]: you're developing skills in critical thinking and analysis, and you're finding gaps in the literature that may point to potential research questions. But when you write your lit review, you're arguing. You're arguing the relevance and significance of your research question. When you're doing it for yourself, you're finding out what

10 steps in a literature review:

1. Make doing the literature review an ongoing process
2. Read quite a few good, relevant reviews
